

Chicago PhD's, 2000–2013

The following lists give all PhD's (Fall through Summer) in each of the years 2000–01 through 2011–2012, whether or not they were supported by VIGRE stipends. Those who were supported are marked with a \*. The quarter and year of PhD and years to completion are given in the form Spring 2001(7). Leaves of absence are not taken into account. Teaching experience is not listed because at least a year of teaching as a stand alone lecturer is required for the PhD, and our records do not indicate exactly how many quarters of teaching each student had.
