

The University of Chicago
ALGEBRAIC GEOMETRY SEMINAR

Tuesday, September 27th, 2015
4:30-6:00 pm, Eckhart 312

Aaron Silberstein
(University of Chicago)

The Disjoint Divisors Theorem

We will discuss when you can conclude that a collection of divisors on an algebraic variety are contained in the fibers of a morphism from that variety to a curve. Joint with F. Bogomolov and A. Pirutka.
