

Math 131, Section 42

Autumn 2007

Aaron Marcus

Office: Eckhart 17

E-mail: amarcus@math.uchicago.edu

Web Page: <http://math.uchicago.edu/~amarcus/>

Office Hours: 1:30-3:00 M, 11:30-1:00 T, and by appointment

Teaching Assistants: Sarah Bennett, Daniel Donchue, and William Claybaugh

Tutorials: 12:00-1:20 TTh

Office Hours: Times to be arranged

Text: Calculus and Analytic Geometry by Varberg and Purcell

General Policy: There will be two in-class tests, each worth 20% of your grade, and a final exam, worth 40%. The remaining 20% of your grade will consist of homework and quizzes. Homework will be assigned in one class period and due in the next, while quizzes will be generally be given in tutorial. You should feel free to work on homework together, but you should write up your solutions independently. The course will not be curved, so 90% will be an A, 80% a B, 70% a C, and 60% a D.

Important dates:

Midterm 1: Friday, October 12

Midterm 2: Friday, November 9

Final exam: Wednesday, December 5, 10:30-12:30

It is the policy of the Department of Mathematics that the following rules apply to the final exam in all undergraduate mathematics courses

1. The final exam must occur at the time and place designated on the College Final Exam Schedule. In particular, no final examinations may be given during the tenth week of the quarter, except in the case of graduating seniors.
2. Any student who wishes to depart from the scheduled final exam time for the course must receive permission from Paul Sally (office is Ry350, phone is 2-7388, email is sally@math.uchicago.edu). Instructors are not permitted to excuse students from the scheduled time of the final exam except in the cases of an Incomplete.

Miscellaneous Items of Interest:

Incompletes are rarely given, and only for cases of extreme personal tragedy. I will almost never give a make-up exam.
