

SCHEDULE WEEK 1

MONDAY Morning, JUNE 22

9:00 am: Peter May: welcome and introduction to the program

9:30 am: Daniil Rudenko: Introduction to the apprentice program
(in breakout room 1)

9:45 am: Further discussion of the full program

10:00 am: Meetings between mentors and mentees, starting in breakout rooms by field, then breaking into small-group or individual mentor-mentee meetings.

=====

Monday through Friday afternoons (and/or mornings, at the discretion of speakers and hosts)

Talks and group meetings are either open to all participants or aimed at focus groups; for focus group events, those who are interested in joining and are not on the list of people in the relevant group should email the designated host in advance. All talks are 45 minutes to an hour, with at least a half hour break between talks.

Talks and other events start at 1:00, 2:30, and/or 4:00. Open talks will be the only event that takes place at their scheduled times. There may be more than one focused group talk or meeting at other times. Talks are live on Zoom; with the speaker's permission, talks will be recorded and made available on Zoom for overseas participants.

=====

MWF 1:00: Greg Lawler: open talks and events

TTh 1:00: Caroline Terry host: Focus group in logic

TTh 1:00: Peter May host: Focus group in algebraic topology
