MATH 277, AUTUMN 2018

First quarter of the Mathematical Logic sequence.
Tuesdays and Thursdays, 12:30-1:50pm, Eckhart 206.

Course instructor: M. Malliaris
Eckhart 406, mem@math.uchicago.edu.
Office hours: to be announced.

Course assistant: I. Scott
Eckhart 12
Office hours, problem session: to be announced.

Class website: http://math.uchicago.edu/~mem/277.html

Suggested references:
Chang and Keisler, Model Theory, third edition (Dover).

Grading scheme:
- 35% homework, see below.
- 25% midterm, in-class on Thursday, October 25 (Thursday of fourth week).
- 40% Final Exam, 1:30-3:30pm on Tuesday, December 11.

Homework will be assigned in class on most Tuesdays and will be due the following Monday at 3pm in the course mailbox in the basement of Eckhart, unless stated otherwise on the assignment. No late homework will be accepted. We will automatically drop the lowest homework score when computing the overall homework grade. You are welcome to discuss the assignments with others in the class, but you should write up solutions independently and state with whom you worked.

Please speak to me as soon as possible, and no later than October 9th, if you anticipate an unavoidable conflict with the date of the midterm. The final exam policy, below, is set by the Department of Mathematics.

Final Exam: Tuesday, December 11, 1:30-3:30pm, location to be determined.

Final Exam Policy
It is the policy of the Department of Mathematics that the following rules apply to final exams in all undergraduate mathematics courses:
- The final exam must occur at the time and place designated on the College Final Exam Schedule. In particular, no final examinations may be given during the tenth week of the quarter, except in the case of graduating seniors.
- Instructors are not permitted to excuse students from the scheduled time of the final exam except in the cases of an Incomplete, or a graduating senior.
