

It Just Keeps

Coming Down

by Ucaoimhu

In this season (despite the unseasonable weather), in this location, I was too lazy to write more than ten clues. Thus, each clue below consists of two parts, one after the other, each cluing one answer; I have added the numbers of the two entries to get the clue number. When the grid is complete, you will be able to read in it a jocular (and so far this year, inaccurate) interpretation of the name of this location, followed by a description of me.
