

SUMMER 2014 UNIVERSITY OF CHICAGO REU PROGRAM
Apprentice 5 week program

CHECK ONE:

I will participate in the program; I understand that it is my responsibility to attend at least the talks in the apprentice program and to do any work expected by its teacher and to meet at least twice a week with my mentor(s). I will be present June 23 through July 18, 2014, and I will not engage in any other employment during that period without the explicit approval of the program director. The program will be fully operational through July 25, and attendance for five weeks is very strongly recommended although not required. I understand that I am welcome to attend and participate in the program through August 15. I also understand that a final short paper (expository or research) is required. I will submit a first draft by August 18 and a final draft by August 29, without fail.

I will not participate in the program
